Re: <u>Notice of Federal Interest in a Pollution Incident</u>
FPN# E15601

Dear Mr. Eray:

This letter is to inform you that a pollution incident, more specifically an oil discharge, for which you may be financially responsible, has occurred at or near Moorinsport, LA at Latitude 32,39', 01"N and Longitude 093, 59' 22" W. Under federal statutes, the United States Government has an interest in this incident and may take appropriate action to minimize damages.

The discharge of a prohibited quantity of oil or a hazardous substance is a violation of the Clean Water Act, as amended, 33 U.S.C. § 1321(b)(3). Under this act, the owner or operator of a source may undertake the removal action. If he/she refuses to take adequate removal actions, he/she may be held financially responsible for action taken by the federal government to remove the pollutant and adequately mitigate its effects. A removal is being performed properly if it is done in accordance with federal and state statutes and regulations and in accordance with the criteria of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). If you undertake the removal action, the adequacy of such action shall be evaluated by the Federal On-Scene Coordinator (OSC). The OSC for this incident is Mr. William Rhotenberry.

If it is determined that you are not taking prompt and appropriate action to clean up, contain, and remove the pollutant(s), a federal response will be initiated. You may then be held responsible for any additional costs incurred by the Federal Government as set forth in Section 311(f) of the Clean Water Act, as amended, 33 U.S.C. § 1321(f).

Sincerely,

William Rhotenberry
Federal On-Scene Coordinator (6SF-PE)
